

SWATCAM

CAPTURE, ASSESS, AND EVALUATE YOUR UNDERSTANDING

THE BENEFITS

- Easily evaluate your crop establishment and weed pressure by SWAT zone.
- Create a more accurate variable rate strategy with the data collected.
- Gain a better understanding of crop establishment by linking it to your SWAT MAP.
- Crop and weed data is presented separately, unlike with satellite imagery where NDVI could represent both.
- View early-stage crop establishment before satellite imagery can detect vegetation.
- Extend your scouting reach and scout your fields from anywhere in the world.
